Numb. 556

Tuesday, April 5 1737.

Fl°. 554.

Yesterday arrived a Mail from Holland, *and another from* France.

LETTERS from Petersburg say, the Russians are preparing to open the Campaign against the Turks and Tartars, with two numerous Armies, the one of 105,000 Men under Count Munich, and the other of above 70,000 under General Lascy. At the same Time the Imperialists are to pursue the Turks in Wallachia, in order to force them to repass the Danube, which Enterprize will be undertaken at the Request of the Russian Court, who are of Opinion, that the Imperialists by acting thus, will oblige the Turks to abandon Moldavia, in order to bend their principal Force towards the Danube. Tho' the Czarina has nominated her Plenipotentiaries for the Conferences at Zorokka, yet 'tis determined for preserving her Dignity, that they shall not set out till News come that those of the Grand Signior are arrived there.

From Warsaw, That the City fills every Day more and more, by Numbers of poor People from the Country, whom the Dearness and Scarcity of Provisions obliges to abandon their Habitations. The Mortality at Petrikaw still continues, yet the Marshal of the Tribunal there has not thought fit to remove that Court from thence, for fear of alarming the People.

There's a very odd Account from Caminiec in that Kingdom, near the Borders of Moldavia, that the People of that City and the Neighbourhood are very much affrighted with the Stories of Ghosts, which they say appear every Night, and kill all that they do but touch or speak to. Several Persons are even said to have died with the Fright, who had never seen, but only heard of these Apparitions. We are told however, that certain Persons solemnly declared, they saw the Ghosts of the Dead actually rise out of their Graves in the Church-yards; that it was thereupon resolved by the Clergy, both of the Romish and the Greek Church too, that the Bodies should be taken up out of the Ground; and that the same was accordingly performed at Close of the Day, in the Presence of the Clergy, who ordered the Grave-Diggers to cut off the Heads of such Bodies as they took out of the Ground, in hopes that this would hinder the future Apparition of such Spectres, or rather to cure the People of their Pannick.

From Copenhagen, That the 20th ult. O. S. the Prince Royal of Denmark entered into the 15th Year of his Age; but the same being Sunday, the Rejoicings for it were put off till next Day, when it was observed at Court with very great Splendor and Magnificence. They add, that his Danish Majesty has, by an Edict, prohibited the Importation of foreign Silk.

From Cologne, That the Pope's Nuncio has forbid all the Clergy of Liege to frequent Coffee-houses, under severe Penalties.

From Hanover, That the Baron de Hardenberg, General in Chief of the Horse, Colonel and Commandant of his Majesty's Hanoverian Life Guards, and Knight of the Teutonick Order, died there in an advanced Age last Thursday se'nnight, very much lamented for his fine Qualities and great Abilities in the Art of War. He was Grand Commandeur of a Commandery in the Teutonick Order in Saxony, in which he will be succeeded by the Baron de Grothe, Lieut. Colonel in Lieut. General Pontpietin's Regiment of Dragoons. The Deceased was also formerly President or Chief of the Council of State, to which all the Courts of Justice in the Dominions of Hanover are subject and accountable, and which receives its Orders immediately from the King, countersign'd by one or other of the German Ministers that attends his Majesty's Person.

From Cassel, That the young Prince Frederick of Hesse is expected there from Geneva in May next, and that his Father, Prince William, proposes this Summer to bring him over with him to England.

The Letters from Rome, mention the Death and Interment of Cardinal Origo, in the 76th Year of his Age, by which there's a 5th Hat vacant in the Sacred College. He was created by Clement XI. 25 Years ago, and was Præfect of the Congregation of the Council. The same Day died the President of the Apostolical Chamber.

They write from Milan, That the Count de Traun, the Governor General, is gone for Placenza, in order to take Possession of that Dutchy, which is for the future, together with those of Parma and Mantua, to be annexed to the Milanese Government.

From Geneva, That on the 20th ult. the King of Sardinia met his Queen at Pont Beau Voisin, and that arriving next Day at Chamberry, the Capital of Savoy, they were saluted by a tripple Discharge of the Cannon, as well as the Huzzas of the People, and complimented not only by the Nobility and Magistrates of the said City, but by the Deputies of Geneva.

They write from Paris, that last Thursday se'nnight one Moses, a Jew, who had been a Prisoner for Debt 8 Years in Fort l'Eveque, and had been for about 6 Weeks very ill, finding himself near the Point of Death, received the Sacrament of Baptism in his Chamber, and embraced the Romish Religion, and next Day at Night he died in the 41st Year of his Age.

Private Letters from Madrid say, that the Duke de Montemar is made Secretary at War.

Bristol, April 2. Last Week died at his Lodgings in Broadmead, Mr. Christopher Cole, an old Salt-Officer in the Customs of this Port. This old Gentleman was very particular as to his Way of Life; his Bed was never made, or shook up as usual, so that by the often Impression of his Body, it seemed as if a Cavity had been carved out to fit it in one Posture; his Room was seldom visited without urgent Necessity, and his Money hid in several Parts of it for fear of Thieves; Cabbage and other Greens, he wou'd not suffer to be washed, when a Housekeeper, but put into the Pot as gather'd, and taken out when warm, because the Crimpness should not be taken off; he had a Blue Jug, stopp'd with a Cork, out of which no Person drank but himself; was always very positive in what he asserted, and would suffer no Contradiction; and seemed always to have a particular Care to prevent his Family from sharing the least Benefit of his Estate, as was seen by several Wills of his own Writing; in one of which, he takes Notice, That whereas a certain Merchant of this City had reported he was Heir to his Estate; which being contrary to his Will, he therefore bequeathed him one Penny to buy him a Whistle; and to all his other Relations, a single Shilling to be divided between them; and the rest of his Money, Funeral Expences deducted, amounting to about 1100 l. he has left to the Charity School at Henbury, in the County of Gloucester, where he had his Education. As he esteemed the Quaker's Religion better than any other, tho' was no Member among them, he ordered his Coffin to be made in a plain Manner.

Of the Six Malefactors mentioned in our last, only John Govey, for stealing a large Quantity of Tobacco, is ordered for Execution, on Friday in Easter Week.

Tuesday Morning one Patrick, a Shoemaker, Aged upwards of 70, tied his two Legs, which were much deformed, and flung himself into the River, in order to drown himself, near the Passage-Boat on St. Philip's Backs; but being prevented for that Time, as he had several Times before from hanging himself; on Wednesday Night he stabb'd himself in several Parts of his Belly, which proved Mortal: He died the Night following.

Saturday Samuel Baber stood in the Pillory in Wine-street, for extorting three Guineas from Mr. Thompson of London; but making an Harangue to the People, and desiring them to take Warning by him, not to take a Bribe to screen Persons from Justice, when a Sodimitical Attempt was offer'd; they were so civil to pelt themselves, and left him alone to be a Spectator to their dirty Sport.

Wednesday Sarah Elliot also stood in the Pillory, for endeavouring to extort Money from Captain Day's Black, by imposing a Child upon him, under Pretence that he was the Father of it, and had artfully smutted a borrowed Child over for the Purpose; she was most miserably pelted for some Time, but the Mob turning their Showers of Dirt, &c. on themselves, the Officers and People, she escap'd the Danger of her Life.

In Yesterday's Gazetteer two Mistakes happened, viz. one with respect to the Time of the Right Hon. the Earl of Anglesea's Death; and the other, as to that Noble Earl's Heir and Successor. It was said that he died on Friday last, whereas he died the Day before, being Thursday the 31st Day of March last: And as to Arthur Annesly, who was mentioned in that Paper as Nephew and Successor to the Noble Earl, deceased, We are well assured, that there is no such Person in Being, and that he is succeeded in Titles and Estate by the Right Hon. Richard Annesly Lord Altham of the Kingdom of Ireland (his eldest Uncle's Son) not only as Heir at Law, but under the Will and Settlement of the late James Earl of Anglesea.

Theſe are to Certify whom it may concern,

THAT the Two Medicines for external Uſe, which have been ſold with ſo much Succeſs for the Good of Mankind near Thirty Years laſt paſt, in the Cure of

All Sorts of RUPTURES, BURSTEN, *or* BROKEN BELLIES.

are removed from the Minories where they have been ſold by the Author, ſo long, and are now ſold only at Mr Sandwell's Toyſhop, the Sign of the Griffin, the Corner of Buckle-Bury in the Poultry, at 5s. the Parcel, ſealed up with printed Directions given with them.

Theſe two Remedies need no other Recommendation than themſelves will manifeſt in two or three Days uſing, having by their admirable and even aſtoniſhing Succeſs, gained the Reputation they ſo juſtly deſerve, both in City and Country, after wearing Truſſes for many Years to no Purpoſe.

For by the Bleſſing of God, they make a perfect Cure either on Old or Young, in a very little Time, and for a ſmall Charge, without any Pain to, or Confinement of the Patient; one Parcel is generally ſufficient for a compleat Cure, eſpecially on a young Perſon.

Many Hundreds of all Ages and Sexes have been cured by them, which occaſioned this Publication, for the Good of the Publick, that all ſuch unhappy People may be delivered from the Charge and Slavery of always wearing Truſſes.

The World might have had many Certificates of Cures of Perſons of all Ages, from Children of a few Months old, to grown Perſons of 60 Years or upwards; but for the natural Hindrance of People being utterly averſe to let it be known that they ever had ſuch an Infirmity: Yet Mr. Sandwell can ſatisfy any reaſonable Inquirer of the Validity of what is here ſaid, tho' he has not had ſuch large Knowledge, by reaſon of the ſhort Time he has ſold 'em, as they from which the Medicines are now, for good Reaſons, removed.

No Letters received except Poſt paid.
